April 22, 2015

Farmingville, NY - On April 16 Councilman Kevin LaValle (left) and Executive Assistant to the Waste Management Commissioner, Frank Tassone (center), toured PK Metals. The tour was given by President and CEO Phil Fava (right). The Town is currently under contract with the company to serve as the host the Town's E-Green Waste Recycling events. PK Metals is a private, New York family operated facility that has been handling recycling needs for large corporations, governmental agencies, utilities and the general public since 1979.

"I thank Phil Fava for taking the time to give Frank and I a tour of his facility," said Councilman LaValle. "Our e-waste recycling events are growing more popular every year and PK is a big reason for making them a success."
